Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is in response to an amendment filed 1/23/04. Claims 2-3 and 6 are cancelled. Claims 1 and 4-5 have been amended. Claims 1, 4-5 and 7-10 are pending in this application.

Response to Amendment

Any rejection of record in the previous action not addressed in this office action is withdrawn. There are no new ground of rejection not necessitated by amendment herein and therefore, this action is final.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 4-5, 7-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. **These are new rejections necessitated by applicant's amendment.**

Claim 1 and by dependency claims 4-5 and 7-10 are vague and indefinite in that the metes and bounds of "about 90% homologous to Kex2" are unclear. A reference sequence is essential to determine % homology of an endoprotease that meets the limitations of the claim.

Furthermore, there is no sequence listing for a Kex2 endoprotease provided for in the specification. (Addition of a sequence listing to the specification may constitute New Matter).

Claims 1, 4-5 and by dependency 7-10 are vague and indefinite in that the metes and bounds of the term “derived” are unclear. It is unclear the nature and number of steps required to obtain a “derivative” of Kex2 endoprotease. The term implies a number of different steps that may or may not result in a change in the functional characteristics of the derived endoprotease from the source that it is “derived from”. It would be remedial to delete the term “Kex 2-derived” and substitute “Kex 2”.

Claim 1 recites the limitation "said Kex 2 variant" in claim 1. There is insufficient antecedent basis for this limitation in the claim. It would be remedial to amend the claim by deleting “variant” and substitute the word “endoprotease”.

Conclusion

No Claims allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
